

Green Campus Policy

Need:

Green Campus Program enables the Institution to conserve natural resources like water and biodiversity, optimize energy efficiency, manage waste and educate about climate change and sustainability while addressing well-being of the students.

Vision:

To make campus eco-friendly and ambient for various activities of the inmates of the institution

Mission:

To make all the stakeholders aware of the significance of the green initiatives and to implement them for a clean and green campus

Campus green Initiatives

- Electric powered vehicle for campus ride
- Rain water Harvesting
